

ORTEX DATA

Event and economic calendars

Company events and macro releases in one calendar, with the surprise against forecast.

Know what is coming, and how it landed. ORTEX brings together the company event calendar, with earnings dates, earnings calls, conference presentations and investor days, and a global economic calendar of GDP, inflation, employment and central-bank releases, each with the actual figure, the forecast, the previous reading and the surprise.

570,000

company events in the last 12 months

WHAT YOU CAN DO WITH IT

Planning

Everything that could move a book in the week ahead.

Macro trading

Releases with actual, forecast and surprise.

Research

Event history for every company.

What is coming, and how it landed

Company and economic events in one calendar.

01

Earnings dates

Upcoming and historical earnings announcements, a month ahead and as far back as you need.

03

Economic releases

GDP, inflation, employment, trade, sentiment and central-bank decisions worldwide.

05

Updated through the morning

Refreshed through the European and US morning, so a print is in the data minutes after release.

02

Calls and presentations

Earnings calls, conference presentations, investor days and special calls.

04

Actual, forecast, surprise

Every release carries the actual, the expected and the previous reading.

06

One calendar

Company and economic events in the same feed.

AT A GLANCE

COVERAGE

Global company events and economic releases

WINDOW

History plus the month ahead

DELIVERY

API, ORTEX platform

WHY ORTEX

Company and macro events in one feed with the surprise already calculated.
